DID YOU KNOW?

For one of the first times in recent history, Viceroy Central Park has used a single design firm to create both the architecture and interior design for a hotel project. Acclaimed design firm Roman and Williams has created a truly striking property that boasts a disciplined architecture topped by a gorgeous cedar wood water tower.

In the Library, Gerber Group's "cartender" serves guests a

complimentary sample of inventive and seasonal cocktails from a vintage bar cart.

Each room at the hotel boasts elegant muntined floor-to-ceiling windows, many with soaring views of Central Park. Guests will also find unique design features like a vintage wallpaper pattern – sourced from Second Hand Rose, dating back to the 1920's – used to line each closet.

The hotel welcomes dogs weighing up to 20lbs.
