## Airelles Val d'Isère - Mademoiselle

---

### KEY FACTS

The hotel is the only true ski-in/ski-out luxury property in Val D'Isere and boasts a prime location on the edge of the slopes at an altitude of 1,850m. Recently launched in December 2019, the hotel will be open for the season until 18th April 2020.

The hotel is the epitome of medieval chic and imbues the aristocratic elegance of a historic stately home, alongside a Haute Epoque contemporary style. Its audacious interiors feature monuments, ornately carved wooden staircases, fireplaces, beamed ceilings, and antique furniture and artwork collected from across France. The cosy lobby is dominated by an extraordinary Dutch style old pewter chandelier. Sumptuous individually designed rooms will all have balconies or terraces, a Hammam shower, mountain

views and a dedicated butler. Each will provide a unique experience of the art of living in the mountains.

Guests of Airelles Val D'Isere are able to savour indulgent cuisine across four restaurants and at a partner restaurant outside the hotel.

The 1,200 sq.m Guerlain Spa is one of the largest spas in Val D'Isere and boasts natural daylight throughout all areas and a large stunning pool set within the rocks, lined with arcades and a natural juice bar.

The hotel is very family friendly, with a large kids kingdom based on Merlin and the enchanted forest, and a separate children's area in the Spa called 'The Grotto'.
