Opened in 1993, Bahía del Duque was the dream of a

group of local businessmen to build a top quality luxury hotel that would become a worldwide benchmark for the tourist sector. Over 25 years later, the Hotel Bahia del Duque is still regarded by many experts as one of the best luxury hotels in Europe and has remained true to its initial values: impeccable service, customer care and attention to detail.

Las Villas were inaugurated in 2008 and then Bahía Wellness Retreat introduced soon after. Both facilities marked a commitment to a personalised luxury and a new approach to wellness-related services.

Both establishments operate under The Tais Hotels &

Villas brand, an exclusive collection of extraordinary hotels with their own personality and commitment to excellence.

Located on a large 100,000 sq.m estate, their architectural uniqueness makes them an international icon in the world of luxury hospitality. They have also become a reference

for sustainability thanks to the 63,000 sq.m of tropical and subtropical vegetation that has encouraged the development of its own bioclimate, with a selection of palms, dragon trees, Indian laurels, Ficus Canariensis, flamboyants, jacarandas, fruit trees, cacti and several European plants.
